Light-Weight Jockey Won Three Races at Delmar - Heavy Weight Was Suspended.

#### MAXIMUS DEFEATED BY LUNAR.

It Did Not Seem He Could Lose -Runnells Favored Mr. Hays-Lindsey's Good Finish.

.. was quite evident at Delmar Park yesterday that the cessation of racing at Washington Park, Chicago, will exert a most beneficent effect upon the sport in St. Louis. For instance, yesterday Frankle O'Neill won three whole races. He was lacky to win three races in three weeks during the past month. The return to form of the promising young light weight must be attributed to the return from Chicago of the gentleman who, were he in The Gad-

of the gentleman who, were he in The Gadfly's country, would be called Mr. Tom
Ayea, but being in an aspirational country
is called the "Outlaw King."
Mr. Hayes had a bad month at Washington Park but he began most auspiclously
yesterday by landing the third race, the
tough T-year-old event, with Runnells, a
likely looking colt by Charade—Zinguri. It
was a hard-looking race with Margue,
Ethylene and Poison to beat, but Runnells
wan it easily and everyone went broke because the good Mr. 'Ayes said he was a bad
herse. And no one accused Mr. Hayes of
not knowing his business. Mr. Hayes had
no friends after the race.

Then O'Nelli won with Eisle Barnee
through deserved good inck, and wound up
with a victory on Brulare, that peerless
property of the good sportsman who is on
the turf as Mr. Johnson. It was "Brulare
on the bit" for fair. A wonderfully consistent old girl, game as a pebble and fast
as a bullet. No shoo-ins necessary for her.
"She is there with the goods, baby," as
that rar- wit. Bill Joyce, would say.

She is there with the goods, haby," as that rar- wit, Bill Joyce, would say.

Houck Gets Himself Into Trouble.

Charley Houck, willful kid, suffering from het weather and much reducing, poor lad, got himself into trouble and was suspended. Houck is a big boy, and during his suspended. Houck is a big boy, and during his suspended himself to grow rather fat. He has had a hard time keeping his fiesh down. He has been everweight regularly, and so much so of late that the olerk of the scales felt obliged to fine him for so being. This hurt Houck. Yesterday he became angered and had quite a till with the officials. Between reducing flesh, going without food and the hot weather and other things, the boy was peevish and cross. He gave Maximus all kinds of a bad ride in the fourth race, and was reprimanded for it. He was rather sharp in his reply to the judges, and was suspended indefinitely for all these things combined.

Houck's conduct may have been reprehensible, and his ride in Maximus certainly was a poor one. He is a willful boy and of a reckless nature. But, when all things are considered, he is rather to be pilled than pamished. The fourth race was the event of the day. On his race with Lasso and Ida Ledford on Saturday, Maximus was made a hot favorite, while backed from 3 to 8 to 5; while the second choice, Lumar, went up in the betting from 8 to 5 to 3 to 1. As Maximus had run the first mile of a mile and seventy yards with Lasso and made her stop, and then went on and ran Ida Ledford to a head in 1455, it did not really seem he could lose yesterday, but he did. He was off last, taken the long way and ridden poorly all round. La Desirous, another contender, had no speed late or early. Hence, Lunar strolled home in the slow time of 1425, Maximus ran three seconds a worse race than he did on Saturday, and he was carring less weight, too.

The first race presented the rather extraordinary spectacle of Lindsey outriding little at the finish. Dale on Sesthing had the race won a couple of lengths from the wire. Ses

### GRAND CIRCUIT MEETING.

Big Crowd Sees the Harness Horses at Cleveland. Cleveland, O., July 22.-Ideal racing weather, a large crowd and a track as smooth as the top of a billiard table, characterized the opening day of the Grand Circuit meeting at the Cleveland Driving Park, Heretofore, it has been the policy of the Cleveland Driving Park Company to charge no admission on the opening day of the Grand Circuit races, but to-pay the full admission price charged, and about 5,000 persons were in at-

tendance.
The finishes of the two heats of the first The imishes of the two heats of the first race for 2:10 trotters were close and exciting, but Sister Allee succeeded in sticking her nose under the wire a winner in both heats. In fact, so close was the first heat, date the judges deliberated fully live minutes before giving their decision.

Nonomie was a hot favorite in the second race, but Martha Marshall was too fleety for the Heimetry, and won in straight heats. Metellas, in the third race, trotted away from the bunch in each heat, keeping a safe gap of daylight between himself and his last flying competitors.

Ed Geers's Shadow Chimes was slated to win the fourth event, bets of 100 to 50 being freely made on him. Audubon Boy made the pace in both heats and came out victorious, in the closest and most exciting race of the day. Shadow Chimes led in the stretch in the first heat, but broke just before the wire was reached, thus killing all chances of crossing a winner. Thousands of dollars were placed on Geers's entry, and the bookmakers reaped a rich harvest.

CARDINALS STILL CLIMBING. Philadelphia a Close Third-American

League Games—Gossip.

The Cardinals advanced six points yesterday in the race for the pennant by their killing with Chicago. Pittsburg rested yesterday, and therefore did not advance. But thirty-one points now separate the locals and Pittsburg. By Chicago's defeat the Cardinal's equaled Pittsburg's record of wirring games—H, but they have lost 34, whilst the Smoky Cityites have dropped only 20. Philacelphia still clings to the coat tails of the Donovanites, by the defeat of Boston yesterday. To-day is full of possibilities for the locals. Possibly Pittsburg may drop one to Cincinnati, Bircoklyn one to New York, and Philadelphia one to the Beancaters. Then if Cal-League Games-Gossip. Brocklyn one to New York, and Philadel-phila one to the Beaneaters. Then if Chi-cago should give the locals another, the fans would be delighted indeed. But, on the other hand, Cincinnati hardly has a chance with Chief Zimmer and his men, and Boston stacks up against a hard propo-sition in Philadelphia. With the exception of Washington, the With the exception of Washington, the teams in the second division of the American League gave the leaders drubbings yesterday. A wild throw lost the game for Haltimore at Milwaukee, and at Detroit the battle lasted twelve innings. Schreckengost, the ex-Cardinai, helped Boston lose by a wild throw. Philadelphia and Chicago also went twelve innings, which were replete with errors, the winning run being scored on an error. Cleveland easily accomplished Washington's defeat.

Wallace has been playing such a steadily brilliant game that eensations are always expected from him. He batted 1.000 yesterday and scored one run. The last time he was up, in the eighth, he slugged the leather for a three-bagger and brought in Paisy Donovan with the winning run.

Pete Childs, the cast-off, did good work for Loftus yesterday. He smashed the ball for Chicago's only three-time hit, and scored once. He participated in a double scored once. He participated in a double play, was credited with two put-outs, and assisted in three others. Since Childs replaced "Cupid," of the same name, at second, the standard of Barry McCormick's work has been brought up, as Pete is a much faster man than his namesake and works better with McCormick.

Powell was a very sick man yesterday, When he left for the clubhouse in the sixth ining, after Donovan had called on Wicker o run in his stead. Powell was barely able keep his feet, and almost collapsed tefor: he was assisted into the clubhouse. He was under the care of a doctor during the rest of the afternoon.

Willie Sudhoff did exceedingly well with the Anarchists after Powell retired. When the game ended he rode to the clubbouse on the shoulders of enthusiastic rooters. The tribe of Loftus were unable to pilfer more than one bag after he went on the rubber.

Pitcher Wicker got in the game yesterday, although not to any great extent. While Powell was recovering from the effects of the heat Wicker came in with the first run for the Cardinals, but in accordance with rules Powell was credited with the run.

The Remnants are somewhat handicapped by the temporary retirement of some of their players. Chance did not appear yesterday, and is not expected to be in the game to-day. King will be out of it on account of his split finger. Eason or Taylor probably will do the twirling for Chicago. It is Jack Harper's turn on the slab to-day, but he may not appear. Murphy is in fair form. Powell may be laid up for a few days, but Sudhoff can be relied on. The fans are beginning to call for Wicker, who is certainly earning easy money and becoming an expert bench warmer.

Douglas announces that if a suitable club can be found to guarantee a perise he will meet Dunleavy at any time, with any sized gloves, the fight to be contested under any conditions that may be agreeable to the Boston man. Both lads are clever boxers and if a bout can be arranged it should draw a large crowd.

**CONSTITUTION WON** 

# COMMODORE'S CUP.

New Cup Defender Clearly Demonstrated Her Superiority Over the Columbia.

ROMPED PAST ALL RIVALS.

Result of the Cruise of the New York Yacht Club Leaves No Doubt of the Constitution's Capabilities.

New York, July 22.—The race between the Constitution and the Columbia on Long Island Sound to-day again demonstrated that the Constitution is the faster fairweather craft. In a light breeze and smoth water, over a twenty-one mile course, Columbia was defeated four minutes and Columbia was not quick enough, for Crawford began to rain blows on bis head. Finally Crawford threw his arm around his neck

The cruise of the New York Yacht Club opened brilliantly to-day, with the race for three valuable cups, presented by Commo three valuable cups, presented by Commodore Ledyard. After the rendezvous at Glen Cove, the squadron got under way and steered for the starting line off Matiniconk Point buoy, where the steam yacht Reverse, with the Regatta Committee aboard, let go her anchor.

The whole fleet was eligible to compete and was divided into three classes, schooners, single-masted vessels and yawls, in cruising trim, and the two cup defenders, Constitution and Columbia, in racing trim.

Interest in the Defenders.

Naturally the principal interest was focused on these two splendid racers, which came to the encounter in thoroughly fit condition. Starting in a nice sailing breeze, which, however, at no time exceeded a seven-knot strength, the Constitution beat her rival, the Columbia, smartly handled and sailed with rare skill and judgment, four minutes and eighteen seconds over a twenty-one-mile course. The first leg was eleven miles northeast by east, one-half east, dead before the wing; the second ieg being a beat to windward of five miles, west, southwest, one-half west, and the third leg a stretch with the wind forward of the starboard beam to the finish line, one mile west from Eaton's Point light.

Constitution Won Easily.

Constitution Won Easily. Constitution Won Easily.

The water was smooth and the wind fairly steady from start to finish. The Constitution started absorately last of all the compelitors. She overhauled the hindmost very rapidly, and several minutes before the outward mark was reached she held a proud nosition in the van, beating the Columbia four minutes and seven seconds. Luffing beautifully round the mark, she buckled down to a pretty thresh to windward, and in this short leg she gained fifty-six seconds on her rival. In the last leg she gained six seconds and romped past the stakeboat a winner of the Commodore's cup.

stakeboat a winner of the Commodites cup.

The extension of the bowsprit of the Constitution will necessitate a remeasurement of the yacht for time allowance. Roughly estimated, the Constitution should allow the Columbia fifty-one seconds over a twenty-one-mile course, so, on corrected time, the Constitution is a winner by three minutes and twenty-seven seconds.

It should be also borne in mind that in the run before the wind the Columbia was favored with a freshening breeze, which helped her to materially lessen the gap, once the rule with a freshening breeze, which favored with a freshening breeze, which helped her to materially lessen the gap, once nearly a mile wide, which separated her from her antagonist. Had it not been for this, the victory of the Constitution would have been far more decisive and convincing.

have been far more decisive and convincing.

Old America's Appearance.

A pleasing incident in the contest was the appearance of the celebrated old schooner America, which, more than half a century ago, won the historic cup for which Shamrock II will race this year.

Another former cup defender, the schooner Columbia, which sailed several successful races against Mr. Ashbury's schooners Cambria and Livonia, when they came here in 1870 and 1871, also started.

The times at the start were as follows: Constitution, 2:48:35; Columbia, 2:45:58.

The finish: Constitution, 5:13:50; Columbia, 5:17:31.

was made to-night to wreck an Hilinois Central freight train south of this city. A man passing along the track noticed two ralls had been torn loose. While observing the damaged track a man came up to him and struck him. A fight followed, and the man that came on the scene when the other was examining the track was stabbed.

Sheriff Fox was notified and has a posse searching the woods in the vicinity of the place selected to wreck the train. Had the break in the track not been discovered the train would have rolled into Big Muddy River, where it left the track. Detroit's Cadillacs Won the Second of the Trial Heats. the Trial Heats.

Chicago, July 22.—The second trial races for the Canada's Cup was salled this afternoon in a northeast wind averaging twenty miles an hour, and was won by the Cadiliac of Detroit, with the Detroit of Detroit second, Illinois third, Minota fourth and Prairie fifth. The last three boats are from Chicago.

The Milwaukee, which won the first race, lost her rudder twenty mintes after starting, and was compelled to drop out. The Yankee of Chicago and Orion of Milwaukee turned back and did not go over the course.

course. The course to-day was nine miles to wind-ward and return. The boats scattered so widely soon after starting, by reason of a number standing off to port in search of smoother water, while others kept straight on, that it was soon impossible to give their relative positions in the race. The Cadillac was the first to round the outer buoy, making the nine miles in 1:36:15, the Illinois was second in 1:48:10 and the Detroit third in 1:50:20. REPUBLIC SPECIAL.

New York, July 22.—In a stout box, about 20 feet in length, 10 feet in breadth and 7 feet high, securely lashed to the forward deck of the German steamer Hohenfels, which lies at Quarantine to-night, is an Egyptian beat, supposed to be more than 4,000 years old, and recently dug out of the bed of the river Nile.

This boat, which is said to be in an excelient state of preservation, became the property of Thomas Cook & Son after its exhumation, and they, in turn, have tresented it to the Carnegle Institute at Pittsburg, Pa.

Straightered out for home, the run was practically without incident, save that the Detreit enught and cassed the Illinois, gaining about two minutes on her in the run lefore the wind. The actual sailing time for the eighteen miles was as follows: Carillac, 2:29:32; Detroit, 2:41:59; Illinois, 2:42:15; Minota, 2:55:05; Prairie, 2:55:25. Elgin Watch Factors Scorence.

M. Beer pointed out that it would be quite against his interests to do husiness with this association, for he sells certain of his models fifty or a hundred times, while under the new soherae he would only sell one, and this model, which would be executed in New York by people of more or less experience, might do harm to his firm, as they would be sold under his name.

M. Paquin said:

"American women of fashion are too fond of creations which are exclusive to themselves to content themselves with the copies of creations which would be exhibited by everybody at New York."

M. Worth stated that before pronouncing on the question he would like to know how the syndicate would work, for the scheme seemed to him very difficult to carry out and one which could not interest American dressmakers or women of frishion.

The former have come to Paris each season in order to find out the general mode and out of five or six hundred models which they inspect they may only buy a dozen or so. But at the same time they would profit by thousands of details which they have seen during their visits.

There are also a number of other things which interest foreign dressmakers on their visits to Paris—materials, trimmings, embroderies, etc., and it is not by making the tour of a necessarily limited exhibition that they would gain the same experience.

Mo., had made a duplicate of a handcuff key from a pewter spoon. It was through this key that his attempt to gain freedom was made feasible.

this action is to make of the metal trades workers the strongest organization of laborers in the country, and one which will support allied trades. Washington, July 22.-The Treasury Department has sent to the State Department a reply to the note of the Italian Government on the subject of Secretary Gage's recent tentative order assessing a counterrecent tentative order assessing a countervailing duty on sugar imported from Italy. Although the text of the note will not be made public at present, it is known that it contains less than 400 words, and says in substance that some time ago 2 copy of a section of the Italian laws on the subject of sugar came into the possession of the department, which created a strong presumption that the effect of the law was to give a bounty on sugar exports. Thereupon the Secretary issued an order to collectors stating that until the question was finally settled by further investigation they would collect the additional duty. This duty would be returned to the importers in case it was subsequently found that the Italian laws did not warrant its imposition. tion.

The Treasury Department has asked for a full copy of the Italian laws on the subject, and, until its arrival, no change will be made in the order now in force.

A cut or any injury to the flesh heals in a few days, nature supplying the healing balm in the form of healthy, new blood; but when the circulation is tainted with poisonous germs, humors or any effete matter, a slight scratch or abrasion of the skin becomes a festering sore tiny nimples grow to be being

becomes a festering sore, tiny pimples grow to be boils, swollen joints and inflamed glands often break out into offensive, slow healing sores. A polluted blood is always a menace to health; not only does it keep the skin in a chronic state of inflammation, but every organ and fibre of the body suffers from an impure and sluggish circulation. You never feel well, you are not and never can be well until the system is relieved of its terrible load of impuri-

ties. With the blood so contaminated, so deeply poisoned, ulcers, boils and sores of every kind are apt to become chronic and often develop into Cancer. Sores and ulcers are m often caused by poverty of the blood and a weak and slow circulation, brought on by long continued sickness, malarial poisoning, torpid liver, the use of mercury, or

whatever is calculated to destroy the vitality of the blood and break down the constitution. These old chronic sores last sometimes for years, eating into the flesh, muscles, tissues, and even down into

I became afflicted with a severe sore leg and from the knoe to the foot was one solid sore, which was very offensive. I spent over \$1,000 on two trips to Hot Springs, and local physicians treated me to no purpose. I had about decided to have my leg amputated, when a friend induced me to try S. S. S. I began to take your medicine, and in the short space of seven months it has completely and thoroughly cured me. Hy leg is a witness today as to what S. S. S. will do when taken regularly. The sore has healed entiroly and my health has improved wonderfully. I have already gained 20 pounds.
